Onderwerp: Building Project at Zeeland Refinery

Dear Sir / Madam,

Cordeel Nederland is executing a blast proof building complex on EPC basis (Civil, HVAC, Electricity) in de period 2010–2011 at Zeeland Refinery in Vlissingen–Oost. This Building complex consists of a 2 level Blast proof control building with adjacent offices, a blast-resistant Laboratory and a Locker building.

Zeeland refinery has high demands regarding to safety and quality. The project has been carried out without major safety incidents so far. The projectteam reports zero Lost Time Incidents and Zero First Aid incidents over a period of 380 working days to date.

We are heading for mechanical completion of the works in December 2011 and are looking forward to complete the project with Cordeel in a satisfactory way for both parties.

Project specifications:

Client : Total Raffinaderij Nederland BV
Contract : EPC
Design : Cegelec Nanterre (pre-design and architecture)
Building sum : € 10.179.000,-
Period of execution : March 2010 - October 2011
Gross Floor area : 3.500 m²

With kind regards,

F.P.J. de Voogd

Project Manager Building Project
